NO TO REFORM - GET ORGANISED

What future do young people have?

Finding it hard to get a job – one million 16 to 24-year-olds not in education, employment or training. Forced to live with our parents for years longer than we need.

When you scroll on social media, we're seeing racism, sexism and other divisive ideas being platformed more and more. Things have only got worse and worse under Labour.

Nigel Farage's Reform UK party pretend to be different, but they're just another voice for the rich elite, with an extra dose of racist scapegoating.

Reform have talked about building more detention centres for migrants, and denied the effects of climate change. All of their MPs used to be members of the Conservatives, while their ex-banker leader accepts millions of pounds from his billionaire mates. Reform aren't against 'the establishment' – they're part of it!

BUILD STUDENT UNIONS

Reform, Labour, and all the big business parties – none of them give young people a voice. We need to get organised to take matters into our own hands. Students could start by building our own student union in our school or college.

A student union is a group of students who want to get organised to change things. By bringing students together in the fight for what we all need, a union can harness our collective strength and build unity against the division of Reform and all the establishment politicians.

With a student union, we could organise in our school or college to:

Protest against racism, sexism and attacks on young people's futures

Call for an end to repressive rules like unfair uniform policies

Demand affordable prices for things like canteen meals and school trips

Support our teachers when they take strike action for better pay and conditions

Do you want help with building a student union at your school or college?

Do you want to fight for a future free from racist division and exploitation, where everyone's needs are met?

UNITE AGAINST DIVISION – FIGHT FOR A SOCIALIST FUTURE

Today the world is in chaos because of capitalism – a system that maximises profits for the super-rich fat-cats at the expense of our youth clubs, housing, schools and a future that we deserve.

Because capitalism is deepening the risk of more war, poverty and climate crisis, the politicians and parties that defend this system – including the Labour Party – are extremely unpopular.

In an attempt stop us from pointing the finger at the super-rich and their system, capitalist politicians blame issues such as a lack of housing, unemployment, and crime on migrants and other minorities. They want us to fight each other instead of fighting together for what we need.

But we know there's enough wealth and resources in society for us all to have good jobs, a high-quality education, and genuinely affordable homes. The top 100 companies in Britain paid out £80 billion to shareholders in 2025 – that's more than many countries produce in a year!

By uniting in a movement to take wealth and power out of the hands of the super-rich, we can build a real alternative – socialism. That would be a society where wealth and resources are used as part of a democratic plan to meet the needs of all, not the profits of the super-rich. Instead of the bosses' division, people would work together for the benefit of all.
